Audit International

What's new
Version 26.2

Index

1. What's New

We are pleased to announce the release of Audit International 26.2. This update primarily focuses on addressing technical debt and internal housekeeping. While this is not a major release, these improvements are essential for maintaining the software's overall stability and performance.

2. Universal

2.1 Fixes

Fixed an issue on the dashboard where the Risk Response area's Assets, Equity and Liabilities, and Income Statement sections remained greyed out instead of blue, despite selecting various engagement profiles and successfully importing a trial balance.

2.2 Related annexures

- Annexure A – Known matters
- Annexure B – Financial Statement integration versions
- Annexure C – Firm author notice

Annexure A – Known matters

Matter	Description	Alternative
Tooltips on procedure conditions	In work programs and checklists, the tooltips on icons for procedure conditions (grey eyes) and tags (blue eyes) may not be correct after the patch update. This is a known display issue.	In each work program or checklist, click on the red button beside the Home button **at least twice** to update the tooltip for procedure actions and conditions to reflect the correctly referenced documents and procedures.
590.600 impact on document manager and Dashboard	After the patch update process has been completed, the group audit work program 590.600 remains mapped under the FSA widget, despite users selecting "No" to the procedure "Is this a group audit" in document 400.Optimizer.	To ensure this document is optimized when not in a group audit scenario, please include the tag 'cw2100' on 590.600 in the document manager in the template.

Annexure B – Financial Statement integration versions

Update

Document manager

Add the tag 'cw2100' on *590.600 Group audit program – Engagement scoping components (Core)* in the document manager to ensure this document is excluded when not in a group audit scenario.

Dashboard

To ensure the dashboard tiles are not greyed out and accurately reflect work programs and worksheets, click 'Edit', select the respective tile, navigate to 'Section and Mappings', manually add each item, and save your changes.
